

Re-inventing mobility:
key-skills building as a tool for mobility

The **αέλια** lab for working life & *key skills*

A non profit “**lab**” which:

- ✓ **informs** through *lectures* and *web campaigns*
- ✓ **motivates** through *challenges* and *games*
- ✓ **assists** through *workshops* and *educational activities*
- ✓ **supports** through *mentoring* and *apprenticeship* programs

about significant issues of **working life** with a main emphasis on **key skills**

Key-Skills: the essential skills for success in work and training

Communicating effectively

Solving problems

Organizing tasks

Working well with other people

Mobility through diversity..

27 Languages

27 Cultural backgrounds

27 Educational Systems

27 Labor worlds??

Another focus for MOBILITY: *are you 'skill-fit'?*

Already in 2002, EU
noted the need to
improve skills in order
to increase MOBILITY
[**[COM\(2002\) 72](#) not
published]

The fear of the 'unknown' or the challenge of *flexibility*?

Fearful or.. just different?

The power of flexibility

Organize your way on a new path...

How easy can you take initiatives?

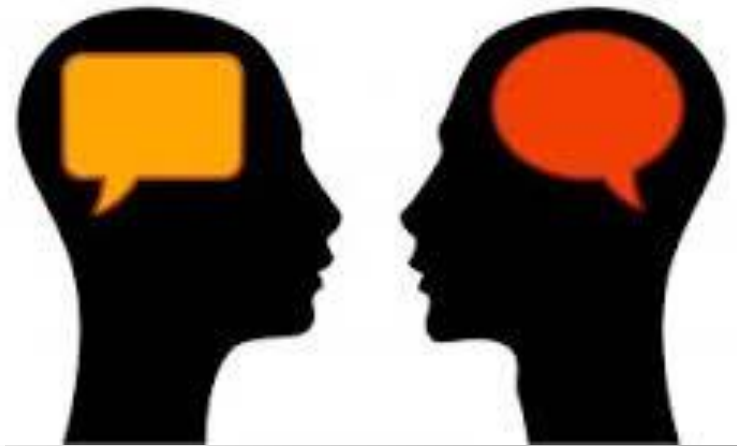

How hard is it to adapt?

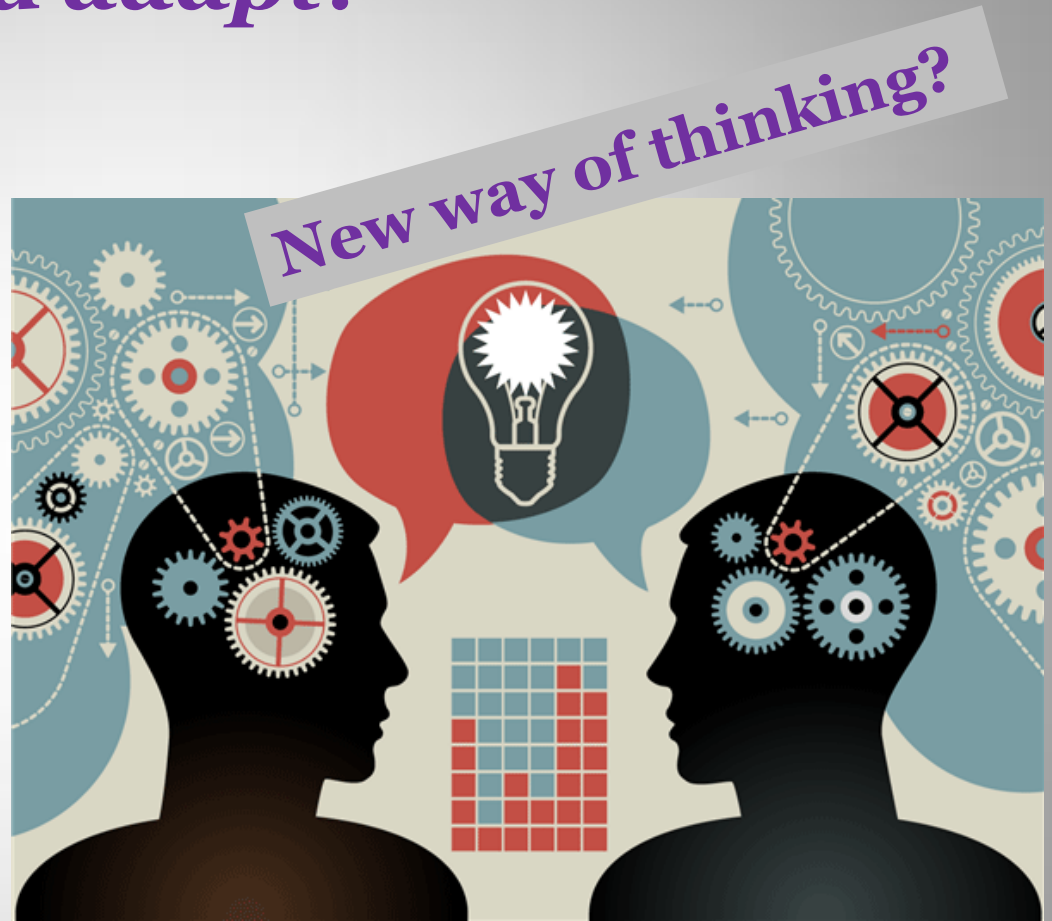

Communication challenges: Understanding and being understood:

*Another language or
another way of thinking?*

Solving problems in a new way.. Can you adapt?

And in the end..*Up-skilling!* The skills benefit of mobility

Thank you!
